1. __Project Description__

The theme that we have chosen for this project is Sports, specifically, a japanese martial art which is Karate-Do. The name that we have chosen for our organisation is "Seishinkan Dojo". "Seishinkan" means sincere or pure heart, meanwhile, "Dojo" means place of training. Seishinkan Dojo is a karate training centre which aims to teach its students some basic and advanced karate skills as well as self - defence techniques. To organise a karate training centre and spread the knowledge of the Karate-Do itself contributes to the goal number 3 of the sustainable development goals, "Good health and well-being". Our motto is "Karate for everyone" since our karate training centre is open for all genders and ages.

The colour black, red and white are the main colours used for our website that symbolises power, strength as well as sincerity. Furthermore, our website consists of six main pages which are called "Home", "Articles", "Membership Enquiry", "Shop", "Contact us" and "Enter Now". The "Home" page is the first page the user will see as they arrive at our website which contains information regarding Seishinkan Dojo. For every page, the user will see the navigation header and they can select other pages they are interested in checking out. For every page as well, as they scroll down towards the end of the page, they can see a footer which contains our social media and e-mail. From the "Articles" page, the user can obtain information regarding Seishinkan Dojo as well as knowledge of Karate itself which are divided into four sections consisting of "Training", "Tournaments", "Grading" and "Other programmes" . When the users are interested in joining our karate class, they could head on to the "Membership Enquiry" page for any enquiry regarding the class or karate. They can also head to the "Contact us" page to contact us directly and also to know our karate centre's location. They could also register themselves by filling a registration form as well as to obtain our class syllabus and schedule at the "Enter now" page. Moreover, they could also head to the "Shop" page to order and purchase karate uniforms and equipment.
